

Rubius Therapeutics to Participate in Jefferies London Healthcare Conference

November 12, 2019

CAMBRIDGE, Mass., Nov. 12, 2019 (GLOBE NEWSWIRE) -- Rubius Therapeutics, Inc. (Nasdaq:RUBY), a clinical-stage biopharmaceutical company that is genetically engineering red blood cells to create an entirely new class of cellular medicines, announced today that Pablo J. Cagnoni, M.D., chief executive officer, will present at Jefferies London Healthcare Conference Wednesday, November 20, 2019, at 10:00 a.m. GMT / 5:00 a.m. EST.

A live audio webcast will be available within the [Investors & Media](#) section of the Rubius Therapeutics website. An archived replay will be accessible for 90 days following the event.

About Rubius Therapeutics

Rubius Therapeutics is a clinical-stage biopharmaceutical company developing a new class of medicines called Red Cell Therapeutics™. The Company's proprietary RED PLATFORM® was designed to genetically engineer and culture Red Cell Therapeutics™ that are selective, potent and off-the-shelf allogeneic cellular therapies for the potential treatment of several diseases across multiple therapeutic areas. Rubius' initial focus is to advance RCT™ product candidates for the treatment of rare diseases, cancer and autoimmune diseases by leveraging three distinct therapeutic modalities — cellular shielding, potent cell-cell interaction and tolerance induction.
