

Rubius Therapeutics to Participate in Jefferies London Healthcare Conference

November 9, 2021

CAMBRIDGE, Mass., Nov. 09, 2021 (GLOBE NEWSWIRE) -- Rubius Therapeutics, Inc. (Nasdaq: RUBY), a clinical-stage biopharmaceutical company that is genetically engineering red blood cells to create an entirely new class of cellular medicines called Red Cell Therapeutics™ for the treatment of cancer and autoimmune diseases, today announced that Pablo J. Cagnoni, M.D., president and chief executive officer, will provide a corporate update at the Jefferies London Healthcare Conference via a virtual presentation, which will be available to view on the conference website on November 18-19, 2021.

The recorded audio presentation will be available within the [Investors & Media](#) section of the Rubius Therapeutics website on November 18th beginning at 8:00 a.m. GMT/3:00 a.m. ET. An archived replay will be accessible for 90 days following the event.

About Rubius Therapeutics

Rubius Therapeutics is a clinical-stage biopharmaceutical company developing a new class of medicines called Red Cell Therapeutics™. The Company's proprietary RED PLATFORM® was designed to genetically engineer and culture Red Cell Therapeutics™ that are selective, potent and off-the-shelf allogeneic cellular therapies for the potential treatment of several diseases across multiple therapeutic areas. Rubius' initial focus is to advance RCT™ product candidates for the treatment of cancer and autoimmune diseases by leveraging two distinct therapeutic modalities — potent cell-cell interaction and tolerance induction. Rubius Therapeutics was named among the 2020 Top Places to Work in Massachusetts by the Boston Globe, and its manufacturing site was recently named 2021 Best Places to Work in Rhode Island by Providence Business News.
