

Rubius Therapeutics to Present at the Virtual 40th Annual J.P. Morgan Healthcare Conference

January 4, 2022

CAMBRIDGE, Mass., Jan. 04, 2022 (GLOBE NEWSWIRE) -- Rubius Therapeutics, Inc. (Nasdaq: RUBY), a clinical-stage biopharmaceutical company that is biologically engineering red blood cells to create an entirely new class of cellular medicines called Red Cell Therapeutics™ for the treatment of cancer and autoimmune diseases, today announced Pablo J. Cagnoni, M.D., president and chief executive officer, will present at the virtual 40th Annual J.P. Morgan Healthcare Conference on Wednesday, January 12, 2022, at 8:15 a.m. ET.

A live audio webcast will be available within the [Investors & Media](#) section of the Rubius Therapeutics website. An archived replay will be accessible for 30 days following the event.

About Rubius Therapeutics

Rubius Therapeutics is a clinical-stage biopharmaceutical company developing a new class of medicines called Red Cell Therapeutics™. The Company's proprietary RED PLATFORM® was designed to biologically engineer and culture Red Cell Therapeutics™ that are selective, potent and off-the-shelf allogeneic cellular therapies for the potential treatment of several diseases across multiple therapeutic areas. Rubius' initial focus is to advance RCT™ product candidates for the treatment of cancer and autoimmune diseases by leveraging two distinct therapeutic modalities — potent cell-cell interaction and tolerance induction. Rubius Therapeutics was recently named among the 2021 Top Places to Work in Massachusetts by the Boston Globe, and its manufacturing site was recently named 2021 Best Places to Work in Rhode Island by Providence Business News.
